# ADE Solutions Assessments

## [ade.solutions/assessments.html](http://ade.solutions/assessments.html)

### Assessments

With our wide range of assessments, ADE is dedicated to helping those who may be struggling with various behavioral health issues.

For a comprehensive behavioral health evaluation and report, simply choose an assessment from the list below! Before you begin each survey, you will have the option to view a sample report and learn more about the assessment. Once you complete your assessment, a PDF report will be generated for you to view and download/print. The price associated with some of these assessments is for this report, which will contain detailed information about your assessment answers. These reports are used and accepted by courts and counselors nationwide.

# ADE Solutions Quiz Example

## [ade.solutions/marijuana](https://ade.solutions/marijuana)

The screenshot displays the ADE Solutions website interface. At the top left is the logo for ADE Solutions. The main content area is titled "Alcohol Quiz" and contains several multiple-choice questions. The first question asks if drinking alcohol raises body temperature, with "False" selected. The second question asks for the definition of blood alcohol concentration, with "The proportion of alcohol to blood in the body as someone drinks" selected. The third question asks for the BAC of .10, with ".10" selected. The fourth question asks for the BAC legal limit for driving, with "0.08" selected. The fifth question asks for non-long-term effects of drinking alcohol, with "A physical dependence on alcohol" selected. On the right side, there is a dark navigation menu with links for Home, Assessments, Education, Professionals, and Help Center, along with social media icons for Facebook, Twitter, LinkedIn, and YouTube.

**ADE Solutions**

### Alcohol Quiz

Drinking alcohol will raise your body temperature, which is why you feel warm while drinking.

- True
- False

Just one alcoholic drink can make you feel warmer, but it actually lowers your core body temperature. Alcohol causes blood vessels to expand, resulting in blood rushing to extremities, like your fingers, and away from vital organs. [Source](#).

What is blood alcohol concentration?

- The proportion of alcohol to blood in the body as someone drinks
- The ability to concentrate after drinking alcohol
- The amount of alcohol that will kill a person
- The legal limit for drinking

A BAC of .10 means that .1% of your bloodstream is composed of alcohol. [Source](#).

What is the blood alcohol concentration (BAC) legal limit for driving in the United States?

- 0.21
- 0.10
- 0.08
- Varies by state

Which of these are not long-term effects of drinking alcohol?

- A physical dependence on alcohol
- Liver disease
- ...

### SolutionsPro - ADE Solutions for Professionals

"There appears to be so much more that our facility can be utilizing other than just the basic surveys." - ADE Professional Customer

SolutionsPro offers professionals an option to use the ADE Solutions library of assessments with their clients. As a professional, you can administer a survey to a client either on a kiosk or device in your office, by providing the client with a website link specific to your practice, or by staging a survey. All of these assessments will only be available interactively, and a paper and pencil version will be available in a future update of SolutionsPro.

This new program can be **completely free** for professionals to use. There is an option in SolutionsPro to have the client enter payment information, eliminating the need for the provider to purchase assessments from ADE.

Staging a survey will allow you to enter some of the client's information before they take the assessment. Once you submit the information for the client, they will receive either an email or an SMS message with a link to the exact assessment. If you provide the client with a link for them to enter on their own, you will have to let them know which instrument to choose before they are able to proceed. Either of these processes can be done in your office or the client can also complete the assessment at home.

Once an assessment is filled out using any of the above processes, the unprocessed assessment will be available in your database for you to process and receive the report. You will also receive email notifications when a new assessment is available to process.
